

DHRUV MISTRY

Web Developer (Frontend)

Phone: +91 6355462186 | **Email:** dhruvmistry.dev@gmail.com | **Portfolio:** thisisdhruv.vercel.app

GitHub: github.com/dhruvmistry | **LinkedIn:** linkedin.com/in/dhruvmistry | **Location:** Bilimora, Gujarat, India

PROFESSIONAL SUMMARY

Frontend web developer with hands-on experience building responsive and user-friendly interfaces using React.js, JavaScript (ES6), Tailwind CSS, and HTML/CSS. Has delivered multiple live client websites end-to-end, from development to production deployment. Completed BCA and currently working full-time as a Frontend Developer at Vernoxy Media.

EDUCATION

Bachelor of Computer Application (BCA)

V. S. Patel College of Arts, Science & Commerce, Bilimora | 2020 – 2023

- Core subjects: C, C++, OOP, Data Structures, Web Technologies, Database Management

TECHNICAL SKILLS

Frontend Development:

- HTML5, CSS3 – semantic markup, responsive layouts, cross-browser compatibility
- JavaScript (ES6+) – DOM manipulation, event handling, ES6 features
- React.js – component-based UI, props and state management, hooks
- Tailwind CSS, Bootstrap 5 – utility-first styling and responsive grid systems

Tools & Deployment:

- Git and GitHub – version control, branching, repository management
- Vercel – deploying and hosting React projects with preview environments
- Hostinger – production deployment and domain/hosting management
- VS Code – primary development environment

EXPERIENCE

Frontend Developer | Vernoxy Media – Valsad, Gujarat | June 2025 – March 2026

- Own the full project lifecycle end-to-end, from initial environment setup through final production deployment
- Translate Figma designs into pixel-accurate, fully responsive UIs across all device breakpoints
- Architect scalable folder structures and build reusable React components to keep codebases maintainable
- Manage version control using GitHub, including branching and repository maintenance across client projects
- Deploy projects to Vercel for staging and Hostinger for production, ensuring stable live releases

Frontend Developer Trainee | Hit N Hammer Technologies - Bilimora | June 2024 – May 2025

- Built multiple React.js projects from scratch, covering component structure, state management, and routing
- Developed and deployed static websites on Vercel, focusing on performance and responsive design
- Applied Tailwind CSS and Bootstrap 5 to create consistent, mobile-first UI layouts across all practice projects

LIVE PROJECTS

Stride Realty – Real Estate Website – www.striderealty.in/

- Developed a real estate listing website with property showcase sections, agent contact, and inquiry features
- Built clean, image-forward layouts using React.js, focusing on visual hierarchy and readability
- Implemented responsive design with Tailwind CSS to ensure a consistent experience across all screen
- Managed end-to-end deployment including domain setup and live hosting at www.striderealty.in

Shah Traders – Business Portfolio Website – www.shahtraders.biz/

- Developed a professional portfolio website for a trading business, showcasing services, product categories, and contact details
- Designed a clean, structured layout using React.js and Tailwind CSS tailored to a B2B audience
- Implemented a responsive multi-section page with clear calls-to-action and easy navigation
- Delivered production-ready build deployed on live domain – www.shahtraders.biz

Om Sai Fire Safety Solutions – Services Website – www.omsaifiresafteysolutions.com/

- Built a complete service-showcase website for a fire safety company, covering product range, certifications, and contact
- Designed trust-focused UI with clear service sections and structured layout using React.js and Tailwind CSS
- Ensured mobile responsiveness and cross-browser compatibility for a professional business audience

Sai Physio – Physiotherapy Clinic Website – www.saiphysio.ca/

- Developed a physiotherapy clinic website for a Canada-based client, covering treatments, therapist profiles, and booking contact
- Built a clean, accessible UI using React.js and Tailwind CSS, focused on patient trust and ease of use
- Handled cross-time zone client collaboration and delivered responsive design for both desktop and mobile users
- Deployed on Canadian domain – www.saiphysio.ca – with stable production hosting

ADDITIONAL SKILLS

- AI Productivity Tools: ChatGPT, NotebookLM, Cloud AI, Gemini – for research, content drafting, and workflow acceleration
- Windsurf Plugin – free AI-powered code acceleration toolkit for faster, cleaner development
- Canva – graphic editing and visual design for digital content
- Video Shooting & Content Creation – producing and editing visual content
- Microsoft Office (Word, Excel, PowerPoint) – documentation, reporting, and presentations
- Soft Skills: Leadership, Communication, Teamwork, Time Management, Problem Solving, Adaptability, Quick Learning

LEADERSHIP & VOLUNTEERING

BAPS Volunteer

- Active volunteer with BAPS Swaminarayan Sanstha, contributing to community service initiatives and large-scale event coordination
- Collaborated with diverse teams to plan and execute volunteer activities, strengthening organizational and teamwork skills

YTK (Youth Training Kendra) Participant

- Completed intensive youth training programs focused on spirituality, leadership development, and personal discipline
- Built strong teamwork, communication, and life-skills foundations through structured group training and mentorship
